PROFESSIONAL SUMMARY

Senior Quality Engineer with 7+ years of experience building code-driven API and UI test frameworks. Proficient in TypeScript/JavaScript — delivering scalable Playwright automation integrated into CI/CD pipelines (Bitbucket Pipelines, GitHub Actions, Jenkins). Currently working in the ANZ enterprise retail market at Accent Group, collaborating daily with AU-based stakeholders. Prior experience in fintech (InvestCloud) and insurance (Sompo). Confident in English-language multinational environments; IELTS 6.0.

WORK EXPERIENCE

Accent Group — ANZ Market

Aug 2025 – Present

Senior Quality Engineer

Multi-brand retail (Platypus, Skechers, Dr. Martens, Vans) on Adobe Commerce, AU/NZ.

- Designed and maintained code-driven API and UI test suites in Playwright (TypeScript) covering REST and GraphQL endpoints across multiple brand storefronts.
- Built CI/CD-integrated test pipelines in Github Actions; automated regression runs on every pull request.
- Led QA strategy for workstream: scoped stories, defined AC coverage, coordinated test execution in Scrum.
- Provided technical guidance on automation patterns (POM, Fixture, Facade); conducted code reviews to enforce coding standards.
- Pioneered context engineering (CLAUDE.md, agent skills, MCP config) to accelerate AI-assisted test development.

Niteco Ltd VN

Dec 2021 – Jul 2025

Quality Engineer

Global brands (Panasonic, HNK, PoK) — CMS customisation (Optimizely, Umbraco, Contentful, Kentico).

- Developed Playwright (TypeScript) suites for UI and API layers; reduced manual regression effort by 30%.
- Shift-left approach at project inception improved defect detection by 20% before integration.
- Executed REST API testing with Postman; automated request chains integrated into CI pipelines.
- Delivered sprint demos and test reports to international clients; maintained on-time delivery across all sprints.
- Mentored QA newcomers on automation and test strategy — full productivity within first month.

NashTech Vietnam (FTX ODC — InvestCloud)

Mar 2021 – Dec 2021

Quality Engineer

InvestCloud — global fintech / wealth technology platform.

- Automated 50+ test cases; reduced manual testing effort by 30% in fast-paced agile delivery.
- Wrote code-driven API test scripts for financial data endpoints; triaged high-priority defects with developers.
- Participated in code reviews; provided technical guidance to QA colleagues.

DXC Technology VN — Sompo Insurance

Sep 2018 – Feb 2021

Professional Product Test

Sompo Insurance (Malaysia / Indonesia) — P&C insurance web app.

- Implemented Selenium (Java) automation from BRDs; reduced testing effort by 20%.
- Collaborated with DevOps engineers on pipeline failures; delivered weekly stakeholder reports.
- Mentored 2 junior QA engineers and managed full defect lifecycle in Jira.
